Cambridge FCE certificate

Personal projects

GeodesyApi Site created for GIS department at University of Architecture, Civil Engineering and Geodesy. It is accessible to students, teachers and freelancesurveyors. The site allows each user to create a profile and to use the materials and projects. The category "Tests" are accessible only to students. It contains and "News" section, where the leading news is posted and each user can leave a comments.

University The project represents a university structure containing teachers, students, subjects and etc. It is used React for the Front-End part and .NET Core for the Back-End technology.

And many other smaller projects on my GitHub profile
